List Price: \$9.20 EA

Pack: 24

Cu. Ft.: 0.23

Weight: 12 lbs

These round CAR Tapered/Nesting Pans rank high in convenience and performance! Ideal for hearty deep dish and topping-loaded pizzas, these pans are reliable in fast-paced commercial kitchens where quality and efficiency are of the essence. Their durable and sturdy aluminum construction heats quickly and evenly, creating a fluffy, golden crust your customers will rave about to anyone and everyone! Plus, our CAR pans are specially designed with unfinished edges, so you can cut dough perfectly to size without the need for additional tools. Can you say shorter preparation and clean up times?! These pans also easily stack and take up minimal space in storage, so you will have plenty of room for all your other American Metalcraft products. No corrosion or wear here – these pans will be with you for the long haul!

With a top outside diameter of 8-1/2", bottom inside diameter of 7-1/2", and depth of 5/8", this round tapered/nesting CAR pan is unlike any other pizza pan. Constructed of 14 gauge, 1.5 mm heavy-weight aluminum, this pan ensures even heat distribution. Its tapered sides help create a fluffy, perfectly even crust that will leave your patrons wanting more. Best of all, the edges are left unfinished so that they're sharp enough to cut dough. Simply place a sheet of dough over the pan and use a rolling pin or pie roller to cut it down to size. This pan's high-quality, durable aluminum is rust, corrosion, and warping resistant, so it will remain intact for years on end. The nesting structure allows for easy stacking and space-saving storage. Use this pan at your pizzeria, restaurant, diner, or hotel kitchen. Made in the US. Hand wash only using aluminum-safe detergent.
