Weight: 41 lbs

Achieve brick oven tasting pizza with our economy pizza stones! Made of durable ceramic, these pizza stones are a more economical, lighter duty version of our cordierite stones. Unlike standard pizza pans, these stones are designed with ideal thickness and porosity for easy heating and maximum retention. They provide an extra-hot surface, baking a light, crispy crust your customers will rave about. Plus, they can be used to keep pizzas warm in heated display cases. Our high-quality stones are FDA-approved. They are a must-have at your pizzeria!

With a length of 15", width of 14", and height of 3/8", this rectangular pizza stone is specially crafted for baking the ultimate pizza. Made of durable ceramic, this pizza stone is a more economical, lighter duty version of our cordierite stones. It can withstand temperatures up to 500 degrees Fahrenheit, and distributes heat efficiently and evenly to create a light, crispy crust. In addition to pizza, this stone is perfect for baking artisan bread, pita bread, English muffins, quesadillas, and cookies. It is FDA-approved, making it an ideal option for your pizzeria, restaurant, or hotel kitchen.
