Condition your pizza and flatbread dough with efficiency and ease when you use any of our rolling dough dockers! Available in a variety of styles, these dockers all feature pins or points that glide across dough to eliminate the formation of pesky air bubbles. Your customers will enjoy perfectly made crust with every bite! All of our dockers are constructed of high-quality, durable materials to accommodate long-term commercial use. Should any of your multi-wheel dockers need a wheel replacement, we offer extra wheels that are quick and easy to add!

This plastic wheel serves as a replacement for our DD5703 long-pin docker. When used with the roller docker, this wheel with 7/8" extra-long pins independently rotates on an axle and creates punctures in dough. The pinches eliminate the formation of air bubbles and help produce an ideal rise. Designed with convenience in mind, this replacement wheel is quick and easy to add!
