DOUGH PANS, ALUMINUM, DELUXE-ANODIZED, SMALL
7" DIA.

List Price: \$17.60 EA

Pack: 12

Cu. Ft.: 1.88

Weight: 9 lbs

Prepare loads of pizza, pie, and bread dough in advance without cluttering your kitchen! These straight-sided and Eastern dough pans allow you to neatly proof and store pre-made dough at your workspace or in the refrigerator. Create a tower of dough using the compatible covers as separators or take advantage of the pans' self-stacking design! These pans are the epitome of convenience – they refrigerate quickly, clean easily, stack securely, and require minimum storage space. Their durable aluminum construction is highly dependable, too!

With an inside diameter of 7", height of 2-1/2", and capacity of 32 ounces (0.9 L), this small deluxe straight-sided stacking pan is perfect for freshly storing prepared pizza, pie, or bread dough. With its round shape and self-stacking design, you can create a secure tower of pans to save space on the counter, in the refrigerator, or in storage. The bottom of each pan serves as a lid for the one below it, so there's no need for multiple lids. Constructed of heavy-weight 14 gauge, 1.5 mm tempered anodized aluminum, this pan is durable enough to withstand commercial usage. The aluminum is resistant to corrosion and wear, so it will remain intact for years on end. For additional convenience, this pan refrigerates quickly and cleans easily. Use this pan at your pizzeria, restaurant, diner, bakery, or hotel kitchen. Made in the US. Hand wash only using aluminum-safe detergent. Compatible with our 7007 Aluminum Stacking Cover.

- Aluminum
- Silver
- Handwash Only
