# PHBS10

SCRAPER, HEAT-RESISTANT  
10" L

**List Price: \$20.00 EA**

Pack: 24/144

Cu. Ft.: 1.27

Weight: 25 lbs

Baking is made easy with our heat- and stain-resistant scrapers! Featuring flexible rubber blades with rounded edges, these spatulas perfectly mold to the shape of your mixing bowls. They gently scrape up every last bit of batter, dough, and paste, without leaving any unsightly scratches behind. Plus, not only are their handles cool to the touch, their durable blades are also heat resistant up to 500° F (260° C). This means you can mix melted sugar and butter on the stove without dirtying additional utensils. Talk about smart, safe kitchen work!

This 10"-long heat-resistant scraper is the ultimate multifunctional cooking and baking utensil! Featuring a 2-1/4"-wide rubber blade, this scraper/spatula is perfect for scraping every last bit of dough, batter, and paste from your mixing bowl or container. The flexible blade is designed with a rounded edge, allowing it to mold to the shape of the bowl and scrape out ingredients without leaving any scratches behind. Plus, the blade is heat resistant up to 500° F (260° C), so it will stay intact even when mixing melted sugar and butter on the stove. The long cool-touch plastic handle offers additional safety, protecting your hands during these high-heat baking situations. Designed for commercial use, this durable scraper is dishwasher safe and its blade is stain resistant. Its handle also has a convenient hanging hole for out-of-the-way storage. Use this smart tool at your bakery, pizzeria, restaurant, or hotel kitchen.
