As buffet looks evolve to reflect today's styles and trends, American Metalcraft introduces contemporary new chafers, beverage servers and Buffetware to fit the most upscale tablescapes. The Evolution Collection from American Metalcraft features simple, elegant design in stainless steel for today's buffets.

When it comes to bringing contemporary design to buffet service, look no further than the Evolution stainless steel induction chafer. Made of heavy-duty stainless steel, it boasts a 9 qt. capacity and an induction bottom that creates an even heating surface for your dish. A hinged glass cover lets guests see what's inside without touching or lifting the lid, and a slow-release feature means the lid won't slam down or cause scratches. Not only does it elevate presentation, but this 26" L x 18" W x 12" H induction chafer keeps your dish just as hot and delicious for those at the back of the line as it does for those at the front.

- Stainless Steel
- Silver
- Wipe Clean with Damp Cloth
- Sleek, Shining Finish and Attractive Glass Window
