The dark side never looked better than on these unique wood boards. The wood is carbonized to give off rich colors and patterns on both sides.

This 18-1/4" L x 9" W carbonized bamboo serving board sets a complementary stage for hors d'oeuvres, bread and cheese boards. It's reversible, with one side a rich, dark brown and the other a lighter, warmer brown – and each side is made all the more attractive thanks to their beautiful natural wood grain. It's the elegance of nature put to good use: making your culinary creations shine. Hand-wash only and wipe down with a damp cloth after use.
