These onyx galvanized serving pans are next level! Not only do they look snazzy, but they are highly functional, too. The wide rim design keeps food from sliding off the tray, so your creations can stay intact and tidy. Available in a variety of sizes, these pans are perfect for pizzas, burritos, fries, sandwiches, burgers, and everything in between. Pair them with any of our circular stands for an even more elevated look. These pans easily stack and take up minimal space in storage, so you will have plenty of room for all your other American Metalcraft products!

The days of using a standard aluminum pan for serving are over. You now have options! With a diameter of 10" and height of 3/8", this onyx galvanized wide rim pan is perfect for pizzas, burritos, fries, sandwiches, burgers, and everything in between. The wide rim keeps pizzas and food from sliding off the tray when serving, so your customers can enjoy a mess-free experience. Constructed of durable, 6 mm thick galvanized iron that is resistant to rust, this pan is built to last in a commercial setting. Elevate your pizzeria, restaurant, bakery, or hotel with this functional and stylish pan.
