Whatever your preferred style of roller is, American Metalcraft has you covered! Featuring a variety of shapes and sizes, this versatile collection of rolling pins caters to all your baking needs. From rolling out pizza, bread, pasta, and pie dough, to fondant and gum paste, our rollers are a handy upgrade to any commercial kitchen. The best part? Their durable construction can handle the everyday wear and tear of busy restaurants, pizzerias, and diners, so you may never have to buy another rolling pin again!

Easily replace the handles on your American Metalcraft wooden rolling pins with this replacement hardware kit. Included are 2 extra handles, stainless steel end caps, and nylon bearings. This hardware is designed for our WRPC5713, WRPC5715, and WRPC5718 rollers. Made in a North American Free Trade Association member country.
