39" OVERALL

**List Price: \$117.00 EA**

Pack: 6

Cu. Ft.: 1.41

Weight: 19 lbs

Our pizza peels are one-of-a-kind! They are the most efficient and safe way to transfer your oven-baked foods. Featuring long, sturdy handles, these peels allow you to slide medium-sized pizzas and breads in and out of even the hottest parts of the oven. The tapered edges of the 14 1/2" square blade slip smoothly under dough and maintain its delicate structure during transfers. The linear perforations reduce resistance and weight, while helping sift away excess flour from the bottom of the dough. Plus, for your convenience, all our peels function as a cutting and serving board! If you are looking for an all-in-one product, you've found it. Constructed of durable materials, our peels will thrive in your commercial kitchen and restaurant for years upon years.

With its 14-1/2" square blade, this deluxe linear perforated aluminum peel is perfect for safely sliding medium-sized pizzas and breads in and out of the oven. It measures at an overall length of 39", allowing you to place food further back into the oven than if you were to use your hands alone. The thin blade slips smoothly under pizzas and maintains the delicate structure of the dough during transfers. The linear perforations reduce resistance and weight, while helping sift away excess flour from the bottom of the dough. Designed with versatility in mind, this peel also conveniently functions as a cutting and serving board. Its high-quality, durable aluminum is resistant to corrosion and wear, so it will remain intact for years on end. Use this peel at your pizzeria, restaurant, bakery, or hotel kitchen. Made in the US. Hand wash only using aluminum-safe detergent.
