These Tapered/Nesting Pans are bringing the heat! With a round shape and nesting structure, these pizza pans are perfect for baking hearty deep dish and topping-loaded pizzas. Their high-quality, sturdy aluminum construction heats quickly and evenly, so you can depend on them for commercial usage where quality and efficiency are of the essence. Your customers are sure to be impressed by your delicious pizzas and short wait times. These pans are also easily stackable and take up minimal space in storage, so you will have plenty of room for all your other American Metalcraft products! No corrosion or wear here ? these pans will last for years on end.

With a top diameter of 15", bottom diameter of 13-1/4", and depth of 1-1/2", this round tapered/nesting pan is the key to baking the perfect pizza. Constructed from 14 gauge, 1.6 mm thick, dark hard-coat anodized aluminum, it heats quickly and evenly, reaching higher temperatures for superior baking results. The non-reactive oxide coating allows you to safely cook acidic ingredients without affecting the flavor or color of your sauces. Now featuring our new EZ Release coating, this pan ensures effortless pizza removal and easy cleanup—even with sticky toppings or sauces. The tapered sides help create a supportive crust for thicker, ingredient-heavy pizza styles, including Chicago-style deep dish and topping-loaded specialty pies. The durable aluminum construction resists corrosion and wear, providing years of reliable performance. Designed for space-saving nested storage, this pan is proudly made in the USA. Hand wash only with an aluminum-safe detergent.

- Aluminum
- Dark Gray
- Handwash Only

- Specialized pretreatment results in a low-friction finish for easy dough release and effortless cleaning
