

PIZZA PIZZAZZ!

Pizza Screens

Heavy duty expanded aluminum seamless construction. Pizza screens can produce a more evenly baked crust by allowing air to circulate beneath the crust.

18716	16" OD (40.6 cm)	144	3.34	65

Additional sizes and options are available.

DID YOU KNOW?

- The most popular pizza size in the U.S. is 14" in diameter.
- The average American consumes 30 lbs. (or 50 slices) of pizza each year.

The Seamless Technology

Seamless Construction – With its patented design, American Metalcraft has developed one of the industry's most revolutionary pizza screens. Each screen is made of heavy duty expanded aluminum specially constructed to reduce rust and corrosion points, which adds to the life of the screen.

Mega Screens

The only pizza screens tough enough to exceed the high standards of NSF, Mega Screens are the smart choice. Holes and open rims make cleaning a breeze and improve food safety. Available in aluminum or hard coat anodized aluminum, Mega Screens can last 5 to 10 times longer than standard pizza screens.

Item No.	Pan Size	Pack	Cu. Ft.	Wt.
28710	10" ID x 10 1/2" OD (25.4 x 26.2 cm)	144	1.85	53

What is Hard Coat?

Hard coat pans are made from Heavy Weight aluminum. Hard coat anodizing is a synergistic electro-chemical process that converts the surface of aluminum into aluminum oxide. The aluminum oxide is a dark color. This finish is hard, and will not flake off.

However, the aluminum underneath is soft and through repeated use the pan will soften. If scoured the pan will thin. Hardcoat pans are not non-stick and must be seasoned.

Wash and dry the pan thoroughly, wipe oil on the inside and outside surfaces of the pan, and allow to soak in for 30 minutes. Then bake at regular cooking times and temperatures. Do not over bake and do not wash off excess oil, just wipe. The oil residue, and any additional oil added before baking, makes the pan stick resistant. Remember when cleaning hard anodized aluminum, this is considered an amphoteric coating, and will be attacked by solutions of a high alkaline or acidic nature. Do not expose these pans to dishwashers or caustic cleaning solutions. Use detergents made specifically for aluminum.

How Do You Season It?

1. Choose your style of pizza (type of pan/screen)
2. Consider your crust preference and storage space (pan series)
3. Choose the size of the pan (diameter)
4. Determine cooking/quality preference (material/hard coating)
5. Add features for cooking and serving (perforations, super-perforations, nibs)

How To Pick The Right Pizza Pan

TP Series Wide Rim Pans

There's a reason why other pizza supply manufacturers imitate, but never duplicate American Metalcraft's product line. When it comes to durability and reliability in pans, American Metalcraft offers the best value. The TP Series of Pizza Pans is manufactured from heavy duty 14 and 18 gauge aluminum. This gauge of aluminum contributes significantly to a longer life.

Standard Weight 18 ga., 1 mm Aluminum

Item No.	Description	Pack	Cu. Ft.	Wt.
TP10	10" OD x 8" ID (25.4 x 20.3 cm)	72	1.22	29
TP12	12" OD x 10" ID (30.5 x 25.4 cm)	72	1.27	39
TP14	14" OD x 12" ID (35.5 x 30.5 cm)	36	0.88	27
TP16	16" OD x 14" ID (40.6 x 35.5 cm)	24	0.81	24

Additional sizes and options are available.

Pizza Servers

Stainless steel with a flexible 5" long x 2 1/2" x 1 1/2" tapered offset blade, 10 1/2" long overall (12.7 x 6.3 x 3.8 x 26.7 cm).

Item No.	Description	Pack	Cu. Ft.	Wt.
PS196	Dark Brown Plastic handle	12/120	1.53	32
19006	Wood Handle	12/120	0.81	22

- Women are twice as likely as men to order vegetable toppings on their pizza.
- More pizza is consumed during Super Bowl Week than any other week of the year.
